

HBIA - HBIS Program - FY25 Dashboard Charts

The following data is an analysis completed by HFS for the Health Benefits for Immigrant Adults and Health Benefits for Immigrant Seniors programs. The purpose of this analysis is to present the programs’ enrollment and liability data to stakeholders and the public in a consumer-friendly way.

FY25 Trended Cost (Spending Dollars in Millions)

Ages	Estimated PMPM	Mar FFS Enrollment	Mar MCO Enrollment	July-Mar Actual Cost	Apr-June Proj. Cost	Total Proj. Costs
42-64	\$1,062	1,047	30,411	\$303	\$100	\$404
65+	\$1,350	790	8,119	\$98	\$36	\$134
Total		1,837	38,530	\$402	\$136	\$538

1 - The FY25 Trended Cost table provides an estimated 12-month cost, informed by the most recent month's enrollment and estimated PMPM rates for the HBIA/S population. Total projected costs are calculated by adding projected costs to actual liability to date. Projected costs are based on the estimated managed care PMPM rates and current program enrollment.

2 - HBIA/S actual and projected costs can fluctuate over time based on a variety of factors, including, but not limited to, retroactive claims adjustments for prior months, provider rate changes and program enrollment. PMPM estimates have been adjusted to reflect additional claims experience and program changes, including the shift to managed care, enrollment suspensions, and the introduction of cost sharing.

3 - Actual costs reflect when FFS claims are approved for payment by HFS (DCN date). Beginning in January 2024, actual costs also reflect when monthly PMPM payments are paid to MCOs. Actual costs do not reflect FFS services rendered but not yet billed to HFS.

4 - Beginning January 2024, estimated PMPM rates reflect estimated managed care rates and are subject to change with program experience. Estimated managed care rates reflect separate PMPMs for HBIA and HBIS enrollees. This report reflects revised PMPM rates from HFS' contracted actuary as of December 2024.

5 - The impact of FY25 budgeted cost controls (loss of coverage due to redetermination effective 09/01/2024) are reflected in the total projected cost calculation, as of September 2024. Enrollment may fluctuate through the end of the reinstatement period ending November 30, 2024.

6 - Actual redetermination results are greater than original estimates due to 1) substantially lower exparte renewal rates among the HBIA/S population as compared to the general Medicaid population; 2) barriers experienced by the population including changes in address, language barriers, reticence of government outreach.

7 - Individuals in the HBIS spenddown category who did not meet their spenddown requirement were not previously included in HBIS enrollment totals. When someone is on spenddown but does not meet their spenddown requirement for the month, they do not receive any covered benefits from the state that month and no medical assistance expenditures are made on their behalf. Due to reporting system updates, these individuals are now included in the total enrollment count beginning January 2025 .

FY25 Monthly Enrollment by Program

FY25 Monthly Cost by Program (Dollars in Millions)

**Liability reported in the month claims were approved for payment by HFS*
